

DRIVEPUR

Protection

Did you know that the average vehicle contains 10 times more of the germs, viruses, bacteria, and mold spores that negatively affect your family's health than the typical household? And that includes toilets and kitchen sinks!

DrivePur is an airborne sanitation product that kills all those unseen germs and bacteria inside your vehicle. It utilizes a non-toxic combination of chlorine dioxide and titanium dioxide. These are the same chemicals used to clean operating rooms. DrivePur creates a barrier—reactivated by heat, light, and moisture—on the interior surfaces of your vehicle that will continue to work for up to a year.

To have your vehicle treated with DrivePur, ask your dealership or call Total Care Auto Powered by Landcar today.

This brochure is for general information and marketing purposes only and is not a contract. The coverage described may not mirror the actual coverage purchased at the time of sale. Specific coverage varies depending upon, among other things, the service contract purchased, optional coverage selections, and the state of purchase. Please read the actual contract documents for important details on coverage, limits, conditions, and terms. If there is any conflict between the information in this brochure and the contract documents, the contract documents will govern. Total Care Auto Powered by Landcar is a division of the Larry H. Miller Group of Companies. Also Licensed as Landcar Agency, Inc in certain states.
